

# Clinical Study Announcement

## Clinical Study for Feline Retrovirus (FeLV/FIV)

### STUDY SUMMARY

Cat Hospital of Chicago is pleased to announce they are currently participating in a clinical study related to various Feline Leukemia (FeLV) and Feline Immunodeficiency Virus (FIV) diagnostic tests. Cats may qualify for one or both parts of this study.

### STUDY FUNDING

The clinical study will pay for confirmatory testing and an exam for eligible cats who have already been screened and have a positive FeLV and/or FIV test. Secondly, cats which are scheduled for a routine screening FeLV/FIV test may have their visit partially subsidized if enrolled onto the study.

## STUDY ELIGIBILITY

### INCLUSION CRITERIA:

- Cats at least 6 months old
- Cats weighing  $\geq$  3 lbs.
- Healthy cat status as determined by your veterinarian

#### For Confirmatory Testing:

- Cats previously tested FeLV and/or FIV positive on a screening test

#### For Screening Tests:

- Cats scheduled for routine testing for FeLV/FIV

### EXCLUSION CRITERIA:

- Cats less than 6 months old
- Cats weighing  $<$ 3 lbs.
- Cats with a history of illness within the past 7 days

**For more information please contact our hospital at (773) 539-9080**
